# CRYPTO CURRENCY

Cryptos can go up, but they can also go down. Like, right down. If you're wondering why, here are a few factors influencing those prices.

What influences cryptocurrency value? The first thing that comes to mind is demand. The higher the demand, the higher the price and vice versa. For cryptocurrency, several factors influence how the price fluctuates.

## PRODUCTION COST

The production cost is another factor that influences cryptocurrency value. Every day, miners use specialized hardware or servers to produce new tokens and verify new network transactions. Miners are rewarded with virtual tokens and a network fee for their efforts.

## CRYPTO EXCHANGES

If a token is available on a large number of crypto exchanges, it increases the number of people buying and using that token. If you need two or more exchanges to swap any cryptocurrency token, you will pay a fee for each swap, raising the investment cost.

## CRYPTO COUNT

The node count shows how many active wallets exist in the same network. You can easily find this information by simply making a Google search or checking the currency homepage.

## GOVERNMENT REGULATION

Certain governments do not appreciate cryptocurrency's decentralized and unregulated character, so look for ways to control the crypto market.

# ABOUT BINANCE SMART CHAIN

Binance Smart Chain (BSC) is a high-end blockchain infrastructure created by Binance one of the world leaders in providing blockchain solutions. Binance Smart Chain was designed to fulfill the same purposes as Ethereum - the ability to launch tokens, smart contracts and decentralized applications but with a much better efficiency. While the Ethereum network uses a token format called ERC-20, the Binance blockchain has its original, innovative token format: BEP-20. Tokens utilizing the BEP-20 format can be purchased, sold and transferred with the fees that can be 30- 100x lower compared to Ethereum fees. Not only the fees, but also the transaction times of Tron Smart Chain are much lower than Ethereum's.

## BINANCE SMART CHAIN

Overall, Binance Smart Chain is simply a much more effective solution than ETH. Since Ewallet Coin is an ecologically- oriented project, choosing the more energy-efficient solution was the obvious choice to make.

# BLOCKCHAIN BASIC

A blockchain is a globally shared, transactional database: everyone can read entries in the database just by participating in the network. If you want to change something in the database, you have to create a so-called transaction which has to be accepted by all others. All identifiers (contract names, function names and variable names) are restricted to the ASCII character set.

## CRYPTO COUNT

The node count shows how many active wallets exist in the same network. You can easily find this information by simply making a Google search or checking the currency homepage.

## GOVERNMENT REGULAION

Certain governments do not appreciate cryptocurrency's decentralized and unregulated character, so look for ways to control the crypto market.

# COMPANY OVERVIEW

What is IBC With our vast and rich experience in the field of blockchain and digital currency, we have designed a very unique and innovative program for our community to achieve greater success and prosperity. IBC allows you to earn profits through a staking program. The limited supply of IBC Crypto is mined through a proof of stake mechanism, where you can start by purchasing IBC and then stake your holdings to earn weekly staking profit IBC

# MISSION

To be dream achievers and a networker's network. Search out for innovative ways to build up our organization to achieve high quality of life.

# VISION

We will always ensure engage in activities that will eradicate poverty by empowering our partners to move up to the next level in life

## WHY WE ARE ?

We are committed to sustainable business Practices and growing our company in an Environmentally responsible way. We offer innovative and efficient Elevator solutions. We shall provide total customer satisfaction and achieve leadership in chosen markets, products and services across the globe, through excellence in technology, a based on world-class research and development. We want to shape the future with technologies for people, create values for people, and become a global company. We will be the best because we are committed to knowing our members and their needs. We will provide leadership and deliver services that consistently meet or exceed their expectations. We will be the best because we will attract and retain employees who have the ambition to serve and will empower them to work effectively as individuals and in teams.
